

# Our Physicians

PERSONAL ATTENTION • LEADING-EDGE CARE

**DR. MACHADO'S PATIENT CARE PHILOSOPHY:**  
*"Treating cancer means treating the whole person. We take a personalized approach to each patient and we respect his or her autonomy."*

## Mitchell Machado, MD

When Virginia Cancer Institute made the decision to move into the Tri-Cities region, one of the main reasons we did so was Dr. Machado. This highly respected oncologist and hematologist has brought a higher level of cancer care to the Southside since August of 2012.

With board certification in oncology, hematology and internal medicine, Dr. Machado has a special interest in targeted therapies and non-chemotherapeutic approaches to cancer treatment. He is also an advocate for the early management of discomfort and pain for cancer patients.

Dr. Machado obtained his undergraduate degree from the University of Ottawa and his medical degree from Saba University School of Medicine. He completed his internal medicine residency at the University of Florida, where he was named chief resident. He continued his training with a fellowship in the fields of oncology and hematology at the University of Virginia. Dr. Machado established a practice in the Petersburg region in 2012. He is a member of both the American Society of Clinical Oncology and the American Society of Hematology.

When he's not in his office at VCI Tri-Cities, he enjoys playing recreational soccer, listening to music and playing disc jockey, and traveling with his wife, Mala.

### WHAT PATIENTS SAY ABOUT DR. MACHADO:

*"Dr. Machado always listens to everything I have to say, and he always explains everything so clearly. He is a compassionate physician."*
